

Purpose

Electronic Survey Tool

- Our Technical Support Team was charged with developing a technology based tool to support ID&R and make eligibility based determinations.
- The group decided we needed a way to get referrals in an efficient manner.
- Something easy to use
- Could be used in lieu of a paper occupational survey or farm survey
- Cost effective
- Not a lot of costs to use the tool

Occupational Survey forms

- Used across the country
- Usually with school districts
- Essential part of developing a recruitment network and getting good referrals
- Schools often give us a ton and then we need to transfer them from paper to a format our recruiters can use.

- We usually are not super good at getting referrals from farmers or agribusinesses.
- We hope this tool assists in this process.
- Now with COVID-19 we have to find new ways of doing ID&R
- Having a simple way to get a referral is a great start to the process

- The Electronic Survey referral tool can be found at the following link
- https://idrreferrals.net/

- Entering a new referral can take less than 2 minutes
- Names of parents or guardians or possible OSY can all be added in
- Address and contact information is also requested
- Once this is entered in the recruiter assigned to that area can automatically receive an email that they have a new referral.

- Ideas of how this can be used
- Link can be added to brochureswebsites-
- Added to the bottom of an email signature
- Mentioned when you share about other resources you have.

Know of someone who might be eligible send me a referral here:

https://idrreferrals.net/

Maybe you have a supply bag like the COVID-19 bags and you mention to a farmer this resource and then say we can mail out bags to those who qualify. Do you think you have any workers who might be eligible. If so you can or they can put their contact information in at this link.

Purpose of the Tool

This electronic survey tool has been created to assist in identifying students ages 3 to 21 that are eligible for Title I Part C program. This program focuses on helping students overcome gaps they have in their education. This is done through supplemental programming such as tutoring, summer programs, in-home classes, etc.

What information is needed?

The following information is requested in the process- the name and phone number of the person providing the referral, the contact information of the person/family being referred, when the person/family moved (if known), how many children in the household, what type of work they came for (if known), and optional is the best time to contact the person/family being referred. It only takes a minute or two to fill out the survey.

What happens once the information is entered?

Once this information is entered into the secure system a program contact from the area of the person/family referred will be notified and will get in contact with the person/family referred.

Who is eligible for Title 1 Part C programming?

Children between the area of 3-21 who have not vet graduated that have moved in

Remember these tools

You can search by name of referral and county for your state.

٩	
---	--

You need to use the magnifying glass to see everything and the reporting icon to see the excel sheet of the file.

You can see only those assigned to you or those who are no longer active.

These icons help you know what to do with the referral such as see the history, the referral detail, and change the eligibility status.

Accounts- 3 per non IRRC state

If your state is wanting access we need someone from the state level to reach out. For now we can grant access to three accounts in the state. Once trained and using it if more are needed we can then establish those.

Glitches- Let us know immediately!

As you come across something not quite working right please take a screenshot and provide as much detail as possible about the problem you are experiencing. Email this to <u>jcastanedaidr@gmail.com</u> Please do not wait but let us know immediately. This will allow us to fix problems quicker.
